YOUR ADVANTAGE

For over 60 years, our tools have been specified and used by aircraft manufacturers and repair facilities throughout the world. Each fastening system is combined with a full range of tools to provide an overall systems approach that ensures optimum compatibility and consistent installation performance.

Used worldwide, our tools are CE Certified and manuals are currently available in multi-language versions. With our large global sales force, we can provide fastener and tool training at customer locations, training centers, etc. Our website at <http://cherryaerospace.com>, provides a wealth of information, from distributors to procurement specifications, part number cross references and product documentation.

The latest tooling catalog may be downloaded from <http://cherryaerospace.com/docs/catalogs/CA-1001.pdf>.

For more detailed tooling information together with dimensional data and up to date tool configuration, go to <http://cherryaerospace.com/product/insttools> and select the “Manuals” link. Cherry Technical Services may be reached via our main number 714-545-5511; we would be happy to assist you with tool selection, troubleshooting or respond to technical questions regarding our products.

HOW TO USE THIS CATALOG

The first sections of this catalog (1 through 4) provide detailed technical information on our riveters. They are grouped by their capability and by their mounting system. All Riveters found in one Section may be used with any of the pulling heads listed at the end of the Section, giving the user many choices to cover a wide variety of fastener installations. For quick reference information, please refer to Section 6. Cross-reference guides allow easy selection of the appropriate tooling for each fastener product. If you already know which tool you need, simply go to the appropriate tool page in sections 1–4.

* Special order product.

PRODUCT EXPERT

An online tooling selection assistant

A new tooling selection capability is available on the Cherry website at <http://cherryaerospace.com/expert>. It is very easy to use, just type in the part number of the fastener to install and a list of recommended tooling will be generated.

REAL PERFORMANCE

Ergonomics is a leading issue in employee health. The design of installation tools from Cherry® Aerospace goes beyond simplistic labels. They offer real alternatives to heavy and/or bulky tools, providing safe and effective performance. The Cherry riveters have an all metallic construction using the best high strength materials available, able to operate reliably in the harshest environments. They are designed for long life, optimum productivity and ease of use. With easy air removal from the hydraulic system (bleeding), fully serviceable, our riveters will provide many years of reliable operation.

Extended length, right angle and offset pulling heads, as well as extensions and adaptors, extend the capabilities of these pulling heads for use across different riveters and in limited access areas. Split riveters, which separate the heavy-duty power unit from the tool head, utilize long hoses to allow installations with difficult access areas.

Replaceable Nosepieces make our pulling heads versatile, allowing the use of the same tool for many types and sizes of fasteners. They also reduce your procurement and maintenance costs.

Our installation tools provide the performance and benefits you need, retaining the value of your investment for years to come.

Improved Safety and F.O.D. Control

The Cherry riveters are supplied with stem deflectors to protect the operator from the high velocity stems ejected during the tool operation. For FOD control, additional stem catcher bags (670A20) or a vacuum system (RIVAC 220-03) may be purchased and fitted on our riveters. An integrated in-line air pressure regulator preset at 100 psi. protects our riveters from potentially dangerous air spikes.

G702A Lightweight Nut-Plate Riveter

DESCRIPTION

The G702A power tool is a pneumatic-hydraulic tool designed for, but not limited to, installation of nut-plate rivets.

Sold as GH702A this tool will also install a number of commercial fastener types and sizes. More information in the tool manuals (TM-G702A and TM-GH702A) on our website at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

SPECIFICATIONS

Air Pressure	90 PSI (6.2 bar) min./110 PSI (7.6 bar) max.
Stroke	0.75 inch (19.05 mm)
Pulling Force	1100 lbs (4.9 kN) @ 90 PSI (6.2 bar)
Cycle Time	Approximately one second
Weight	3.5 lbs (1.59 kg)
Noise Level	71 dB (A)
Vibration	Less than 2.5 m/s ²
Air Consumption	0.09 SCF/cycle (1.87 L/cycle)

PULLING HEAD AVAILABILITY

G702A Pulling Head

Pulling heads are not furnished with riveter and must be ordered separately.

H702A-3NPR Pulling Head

Pulling Head	Rivet	Rivet Diameters	Type	Nosepiece*	Maximum Grip
H702-3NPR	Nut-Plate	3/32 2.5 mm	Straight	728A9-3	-12
		1/8 3.0mm		728A9-104	
H702-3NPR	SPR®	3/32	Straight	728A9-3	All

* Both nosepieces included with pulling head.

More detailed information for these pulling heads may be found at More details about this tool can be found on our website at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

G704B Lightweight CherryMAX®

Riveter

National Stock Number: 5130-01-393-1584

Military Part Number: M85188T2

DESCRIPTION

The G704B riveter is a medium duty, pneumatic-hydraulic tool designed, but not limited to, optimum installation of the Cherrymax fasteners. It features the “Cherrymax mounting system” supported by a wide variety of pulling heads and adapters supporting most of our blind fastening system.

More details about this tool can be found in the tool manual (TM-G704B) that may be accessed at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

Please refer to the tables at the end of Section 1 for help selecting the proper pulling heads.

SPECIFICATIONS

Air Pressure	90 PSI (6.2 bar) min. / 110 PSI (7.6 bar) max.
Stroke	0.510 Inch (12.954 mm)
Pulling Force	3100 lbs (13.79 kn) @ 90 PSI (6.2 bar)
Cycle Time	Approximately one second
Weight	4 1/4 lbs (1.93 kg)
Noise Level	71 dB (A)
Vibration	Less than 2.5 m/s ²
Air Consumption	0.16 SCF/cycle (4.53 L/cycle)

G704B-SR & G704B-40SH CherryMAX® Split Power Riveters

G704B-SR: National Stock No. 5130-01-237-0488

DESCRIPTION

G704B-SR and G704B-40SH are split versions of G704B. The benefit of the split riveters is the fact that the larger, heavier power unit is typically placed on the floor, away from the structure, allowing access in space constricted areas of the aircraft and providing a more ergonomic solution for the operator.

The main difference between G704B-SR and G704B-40SH is the length of the hose (3 feet and 8 feet respectively).

More details about this tool can be found in the tool manuals that may be accessed at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

SPECIFICATIONS

Weight	4.5 lbs. (power unit only)
Stroke	0.518"
Pulling Capacity	3136 lbs. on 90 psi
Air Pressure	90-120 psi normal operating air pressure at inlet
Air Consumption	4 CFM of air at 20 cycles per min.
Noise Level	Does not exceed 85dB(A)
Pulling Heads	Straight, right angle, offset

PULLING HEAD AVAILABILITY

Pulling heads are not furnished with riveter and must be ordered separately.

G746A CherryMAX® Riveter

National Stock Number: 5130-01-338-3403

DESCRIPTION

The G746A riveter is a light duty/ long stroke, pneumatic-hydraulic tool designed, but not limited to, optimum installation of wiredraw (CherryMAX® AB, CherryLOCK®) fasteners. It features the “CherryMAX® mounting system” supported by a wide variety of pulling heads and adapters supporting most of our blind fastening system.

More details about this tool can be found in the tool manual (TM-G746A) that may be accessed at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

SPECIFICATIONS

Air Pressure	90 PSI (6.2 bar) min./110 PSI (7.6 bar) max.
Stroke	0.875 inch (22.23 mm)
Pulling Force	1850 lbs (8.23 kn) @ 90 PSI (6.2 bar)
Cycle Time	Approximately one second
Weight	4-1/4 lbs (1.93 kg)
Noise Level	72 dB (A)
Vibration	less than 2.5 m/s ²
Air Consumption	0.25 SCF/cycle (7.08 L/cycle)

PULLING HEAD AVAILABILITY

Pulling heads are not furnished with riveter and must be ordered separately.

G747 Lightweight CherryMAX® Riveter

National Stock Number: 5130-01-044-7206

DESCRIPTION

The G747 riveter is a compact, light duty, pneumatic-hydraulic tool designed, but not limited to, optimum installation of CherryMAX fasteners. It features the “CherryMAX mounting system” supported by a wide variety of pulling heads and adapters supporting most of our blind fastening system.

More details about this tool can be found in the tool manual (TM-G747) that may be accessed at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

SPECIFICATIONS

Air Pressure	90 PSI (6.2 bar) min./110 PSI (7.6 bar) max.
Stroke	0.437 inch (11.1 mm)
Pulling Force	2100 lbs (9.34 kN) @ 90 PSI (6.2 bar)
Cycle Time	Approximately one second
Weight	3.5 lbs (1.59 kg)
Noise Level	71 dB (A)
Vibration	less than 2.5 m/s ²
Air Consumption	0.09 SCF/cycle (2.55 L/cycle)

PULLING HEADS AVAILABLE FOR THE SECTION 1 RIVETERS

Pulling heads are not furnished with riveter and must be ordered separately. More detailed information for these pulling heads may be found at More details about this tool can be found on our website at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

Notes:

- See Pulling Head Tool Sheet for other configurations and fastener capabilities.
- G746A is only recommended for -4 and -5 diameter MAXIBOLT® fasteners due to power limitations.
- H747-456, H753-456 and H782 can be re-configured in order to install 3/16” aluminum fasteners; see Tool Sheet. at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.
- Grip capability may be extended by “double stroking”.
- Grip as identified by NAS1719, NAS1720 and NAS 1721 (see Standards Page for the fastener to be installed).

G83A Lightweight Lockbolt Riveter

DESCRIPTION

G83A is a lightweight pneumatic-hydraulic riveter with hydraulic piston return designed, but not limited to installation of Lockbolt and Blind Bolt type fasteners. This tool is equipped with a bayonet mounting system, common for G83A and G84 (compatible to Huck 230, 362 models). This new version of our G83 has an improved hydraulic piston return system and it is based on the popular G704B power unit, simplifying logistics for tool repair and maintenance.

More details about this tool can be found in the tool manual (TM-G83A) that may be accessed at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

Please refer to the tables opposite for the correct pulling head choice for your application.

SPECIFICATIONS

Air Pressure	90 PSI (6.2 bar) min./110 PSI (7.6 bar) max.
Stroke	7/16 inch (11.1 mm)
Pulling Force	3,750 lbs. (16.7 kN) @ 90 PSI (6.2 bar), 800 lbs. (3.56 kN) on return stroke
Cycle Time	Approximately one second
Weight	4.95 lbs. (2.25 kg)
Noise Level	78.4 dB (A)
Vibration	less than 2.5 M/S2
Air Consumption	0.16 SCF/cycle (4.53 L/cycle)

G84 Medium Duty Lockbolt Riveter

DESCRIPTION

G84 is a medium duty pneumatic-hydraulic riveter with hydraulic piston return designed, but not limited to installation of Lockbolt and Blind Bolt type fasteners. This tool is equipped with a bayonet mounting system, common for G83A and G84 (compatible to Huck 230, 362 models).

More details about this tool can be found in the tool manual (TM-G84) that may be accessed at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

Please refer to the tables opposite for the correct pulling head choice for your application.

SPECIFICATIONS

Air Pressure	90 PSI (6.2 bar) min./110 psi (7.6 bar) max.
Stroke	9/16 inch (14.3 mm)
Pulling Force	5,750 lbs. (25.6 kN) @ 90 PSI (6.2 bar), 1200 lbs. (5.34 kN) on return stroke
Weight	7.70 lbs. (3.5 kg)
Noise Level	dB (A)
Vibration	less than 2.5 M/S2
Air Consumption	0.29 SCF/cycle (8.21L/cycle)

Adapters for G83A/G84 tools

Adapter††	To Adapt To Tool Mounting System
744-100	G85D-S/G87D
744-200 †	G744
744-300	G704B/G747/G746A

* Use adapter no. 744-100 to accept pulling head design used on G85D, G87D and 353 Style tools

** Use 652-106 "U" type nose piece for "U" type -8 diameter

† Requires removal of bayonet mount

Other pulling heads may be used with the help of the adapters given above.

More details about these pulling heads may be found on our website at <http://cherryaerospace.com/product/insttools> by selecting the "Manuals" link.

G84-LS Split Riveter

DESCRIPTION

G84-LS is a split version of the G84 riveter designed for access in hard to access structures. As such, it features an offset piston design and a mounting system different than the standard bayonet mount found on the G83A / G84 riveters. For more flexibility, the design allows for straight (in-line) and pistol grip configuration of the hand held unit.

A full range of adapters to our most common mounting systems is available, making this tool compatible with virtually all the Cherry pulling heads and attachments.

More details about this tool can be found in the tool manual (TM-G84-LS) that may be accessed on our website at <http://cherryaerospace.com/product/insttools> by selecting the "Manuals" link..

SPECIFICATIONS

Air Pressure	90 psi (6.2 bar) min./110 psi (7.6 bar) max. at tool
Stroke	0.530 inch (13.5 mm)
Pulling Force	5,700 lbs. (25.32 kN) @ 90 psi (6.2 bar)
Weight	Total: 11.8 lbs. (5.35 kg); head only: 2.0 lbs. (.91 kg)
Noise Level	66.5 dB (A)
Vibration	4.0 m/s ²
Air Consumption	0.34 SCF/cycle (9.63 L/cycle)

PULLING HEAD AVAILABILITY*

Pulling heads for the G84-LS or comparable riveters will fit directly with no adaptation required. For other Cherry mount systems, the following adaptors are required:

Adapter*	To Adapt to Tool Mounting System
744-500	Cherry G744 mount
744-600	Cherry G704B/G747/G746A
744-700	Cherry G83A/G84 Bayonet
744-800	Adaptor to H84B-568

*Pulling Heads and adapters are not furnished with riveter and must be ordered separately.

Contact Cherry Aerospace Technical Services for more information on Pulling Head selection.

For more information, visit our website at <http://cherryaerospace.com/product/insttools> by selecting the "Manuals" link.

G87D Lockbolt Riveter

National Stock Number: 5130-00-760-1360

DESCRIPTION

G87D is a heavy duty pneumatic-hydraulic riveter with hydraulic piston return designed, but not limited to, installation of Lockbolt and Blind Bolt type fasteners.

This tool is equipped with a large bayonet mounting system common with G85D-S (compatible with the Huck 353 model).

More details about these pulling heads may be found on our website at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

SPECIFICATIONS

Air Pressure	90 PSI (6.2 bar) min./110 PSI (7.6 bar) max.
Stroke	9/16 inch (14.3 mm)
Pulling Force	9,500 lbs. (42.3 kN) @ 90 PSI (6.2 bar),
Weight	10.75 lbs. (4.875 kg)
Noise Level	74.2 dB (A)
Vibration	less than 2.5 m/s ²
Air Consumption	0.60 SCF/cycle (17 L/cycle)

PULLING HEAD AVAILABILITY

Pulling heads are not furnished with riveter and must be ordered separately.

*These parts require the 552 adapter when used on Cherry G87D, G85D or Huck®353. Parts with an asterisk fit directly on the Cherry G83A or Huck®352 tools.

NOTES: Parts with no asterisk fit directly on Cherry G87D, G85D and Huck®353 tools.

After the H513 in part numbers, S = Swivel, R = Self Releasing C = Chisel Nose

Straight Lockbolt pulling head part numbers indicate pulling head length and diameter. Example: In Part No. H513-05-35 the -05 indicates 5/32 diameter and -35 indicates that the pulling head extends 3-1/2" beyond gun line. After H563, SP = Short Pintail

** CherryMAX® adapter and pulling heads can install CherryMAX®, CherryMAX® 'AB', and SST® rivets.

G85D-S Split Lockbolt Riveter

Description

G85D-S is a split version of G87D. The benefit of the split configuration is the fact that the larger, heavier power unit may be placed on the floor, away from the structure, allowing access in space constricted areas of the aircraft and providing a more ergonomic solution for the operator.

This tool is equipped with a large bayonet mounting system common with G85D-S (compatible with the Huck 353 model).

More details about this tool can be found in the tool manual (TM-G85D-S) that may be accessed on our website at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

SPECIFICATIONS

Air Pressure	90 PSI (6.2 bar) min./110 PSI (7.6 bar) max. at tool
Stroke	0.720 in. (18.3 mm)
Pulling Force	7,000 lbs. (31.1 kN) @ 90 PSI (6.2 bar)
Weight	Total: 19.3 lbs. (8.75 kg), Head only: 4.3 lbs. (1.95 kg)
Noise Level	76.7 dB (A)
Vibration	less than 2.5 m/s ²
Air Consumption	0.27 SCF/cycle (7.65 L/cycle)

PULLING HEAD AVAILABILITY

Pulling heads are not furnished with riveter and must be ordered separately.

* These parts require the 552 adapter when used on Cherry G85D-S, G87D or Huck®353. Parts with an asterisk fit directly on the Cherry G83A, G84 or Huck®352 tools.

NOTES:
In pulling head part numbers,
S = Swivel
R = Self Releasing
C = Chisel Nose
SP = Short Pintail

Straight lockbolt pulling head part numbers indicate pulling head length and diameter. Example: In Part No. H513-05-35 the -05 indicates 5/32 diameter and -35 indicates that the pulling head extends 3-1/2" beyond gun line.

G700 Lightweight Double Action CherryLOCK® Riveter

DESCRIPTION

G700 is a lightweight double action pneumatic-hydraulic riveter designed for installation of the -3 and -4 diameter CherryLOCK® Wiredraw rivets.

It has a custom mounting system only compatible with double action pulling heads (H681).

More details about this tool can be found in the tool manual (TM-G700) that may be accessed on our website at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

SPECIFICATIONS

Air Pressure	90 – 110 psi
Stroke	0.906"
Pulling Force	1220 lbs.
Weight	5.75
Noise Level	<69 dB(A)
Vibration	Less than 2.5m/s ²
Air Consumption	0.25 SCF/Cycle (7.08 L/cycle)

PULLING HEAD AVAILABILITY

Pulling heads are not furnished with riveter and must be ordered separately.

G784 Double Action CherryLOCK® Riveter

National Stock Number: 5130-00-935-4681

DESCRIPTION

G784 is a medium duty double action pneumatic-hydraulic riveter designed for installation of the -3 and -4 diameter CherryLOCK® Wiredraw rivets.

It has a custom mounting system only compatible with double action pulling heads (H681), but with proper adapters it can be used with other front or side eject pulling heads.

More details about this tool can be found in the tool manual (TM-G784) that may be accessed on our website at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

SPECIFICATIONS

G695B Right Angle Double Action CherryLOCK® Riveter

National Stock Number: 5130-00-435-5689

DESCRIPTION

G695B is a split double action pneumatic-hydraulic riveter designed for access in limited access areas. The compact right angle active area is placed at the front of the hand held unit.

The benefit of the split configuration is the fact that the larger, heavier power unit may be placed on the floor, away from the structure, allowing access in space constricted areas of the aircraft and providing a more ergonomic solution for the operator.

This tool is equipped with a custom mounting system only compatible with special double action pulling heads (H690).

More details about this tool can be found in the tool manual (TM-G695) that may be accessed on our website at <http://cherryaerospace.com/product/insttools> by selecting the "Manuals" link."

HAND POWERED RIVETERS

The hand powered riveters are compact tools that do not need any power source other than the operator's hand. They are usually squeezed or pumped until the fastener installation is complete.

There are two types of hand powered riveters:

- Mechanical type: the lowest cost and smallest, offering modest amount of power good for installing small diameter fasteners;
- Hydraulic type: the most versatile, most powerful hand powered riveter.

G27 CherryMAX® Hand Powered Riveter

National Stock Number:512-01-145-0281

DESCRIPTION

This mechanical type riveter is recommended for installation of small diameter CherryMAX®, SST® and MBC® L/C (Lock Creator type) blind fasteners (see table below).

More details about this tool can be found in the tool manual (TM-G695) that may be accessed on our website at <http://cherryaerospace.com/product/insttools> by selecting the “Manuals” link.

G27 riveter can pull the following part numbers:

G29 Nut Plate Hand Powered Riveter

National Stock Number: 5120-01-426-6095

DESCRIPTION

This mechanical type riveter is recommended for installation of small diameter Nut Plate Rivets (3/32" and 1/8"). It comes quipped with both 3/32" and 1/8" diameter nosepieces (1/8" is stored in the handle).

See table below for the fastener compatibility:

G29 riveter can pull the following fasteners:

G30 CherryLOCK® A Hand Powered Riveter

National Stock Number: 5120-01-416-7826

DESCRIPTION

This mechanical type riveter is recommended for installation of 3/32" diameter CherryLOCK® "A" blind fasteners (see table below).

G30 riveter can pull the following rivets:

3/32 'A' Code Rivets
CR2672
CR2673
NAS1399C3A()
NAS1398C3A()

G800 & G800CMR Lightweight Hand Riveter

G800CMR

National Stock Number: 5120-01-583-1154

DESCRIPTION

The G800 hydraulic riveting tool provides the versatility of pneumatic-hydraulic riveter with a lightweight, high pull strength ratio not found in other hand riveters. A proprietary 2 stage hydraulic "intelligent" system switches the tool back and forth between the long stroke and the high power stages, providing very high pulling force with a minimal number of pumps and low hand effort.

The G800 hand riveter can install a variety of blind fastener styles, diameters, head configurations, and material combinations. The G800 with the standard pulling head can install CherryMAX® and SST® blind rivets in -4, -5, -6, diameters, and -05, -06 diameter MAXIBOLT® blind bolts by simply changing the pulling head. The straight pulling head is provided with the tool.

SPECIFICATIONS

Stroke	0.750 inches (19.06 mm)
Pulling Force	Adjustable to over 4500 lbs.
Weight	1.9 lbs. (861.8 grams)
Overall Height	6.4 inches (162.5 mm)
Overall Length	7.75 inches (196.8 mm)
Pulling Heads	Straight, offset, right angle, threaded inserts

G800 PULLING HEADS AND ACCESSORIES

G800CMR HAND RIVETER TOOL KIT

NSN 5120-01-583-1154

This G800CMR kit includes the G800 riveter, a right angle and offset pulling head, additional nosepieces to install 3 dia A code CherryLOCK® and 5 dia. U type blind bolts. It also includes a fastener reference guide (FRG200) and all the Tool Manuals and Instructions for proper use.

For more tool kits see the following pages.

G800 Hand Tool

Pulling Head	Adapter	Rivet	Diameters
H800 Straight (supplied)	—	CherryMAX®	-4, -5, -6
	—	CherryMAX® 'AB'	-4, -5, -6*
	—	SST®	-4, -5, -6
	—	MAXIBOLT® ("S" type)	04, 05

Cherry Tool Accessories

Part Number	Description	Usage	Compatible Riveter Models
700A77	Hydraulic Air Bleeder	This accessory is used to re-fill or purge the air out of the hydraulic systems of hydro-pneumatic riveters	All except G800
800-034	G800 Hydraulic Air Bleeder	This accessory is used to re-fill or purge the air out of the G800 hand riveters	G800
P1484	Air Bleeder Adapter	Use this adaptor to convert 700A77 into 800-034 (for bleeding the G800 riveters)	G800
P1505	Pre-set in-line pressure regulator	This pressure regulator mounts directly on the inlet of any of our riveters and it is pre-set to 100 psi. It is used to protect the riveter from potential dangerous air pressure spikes.	All
670A20	Stem Catcher	This add on just snaps in place over the stem deflector to contain the spent stems and control FOD	G702A, G704B, G704B-40SH, G704B-SR, G746A, G747, G83A and G84
RIVAC 220-03	Vacuum Stem Collection System	This add on may be used instead of the stem deflector and stem catcher. It provides vacuum assist to control the spent stems (FOD) and prevent tool jamming	G702A, G704B, G704B-40SH, G704B-SR, G746A, G747

Riveter Adapters

LIMITED WARRANTY

Seller warrants the goods conform to applicable specifications and drawings and will be manufactured and inspected according to generally accepted practices of companies manufacturing industrial or aerospace fasteners. In the event of any breach of the foregoing warranty, Buyer's sole remedy shall be to return defective goods (after receiving authorization from Seller) for replacement or refund of the purchase price, at the Seller's option. Seller agrees to any freight costs in connection with the return of any defective goods, but any costs relating to removal of the defective or nonconforming goods or installation of replacement goods shall be Buyer's responsibility. SELLER'S WARRANTY DOES NOT APPLY WHEN ANY PHYSICAL OR CHEMICAL CHANGE IN THE FORM OF THE PRODUCT IS MADE BY BUYER. THE FOREGOING EXPRESS WARRANTY AND REMEDY ARE EXCLUSIVE AND ARE IN LIEU OF ALL OTHER WARRANTIES AND REMEDIES; ANY IMPLIED WARRANTY AS TO QUALITY, FITNESS FOR PURPOSE, OR MERCHANTABILITY IS HEREBY SPECIFICALLY DISCLAIMED AND EXCLUDED BY SELLER. THIS WARRANTY IS VOID IF SELLER IS NOT NOTIFIED IN WRITING OF ANY REJECTION OF THE GOODS WITHIN ONE (1) YEAR AFTER INITIAL USE BY BUYER OF ANY POWER RIVETER OR NINETY (90) DAYS AFTER INITIAL USE OF ANY OTHER PRODUCT.

Seller shall not be liable under any circumstances for incidental, special or consequential damages arising in whole or in part from any breach by Seller, AND SUCH INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES ARE HEREBY EXPRESSLY EXCLUDED.

Our policy is one of continuous development. Specifications shown in this document may be subject to changes introduced after publication.

CherryMAX®, CherryLOCK®, MBC®, MAXIBOLT®, SST® and SPR® are trademarks of Cherry Aerospace.

NOTE

The properties, strengths, dimensions, installed characteristics and all other information in this catalog is for guidance only to aid in the correct selection of the products described herein and is not intended or implied as part of the warranty. All applications should be evaluated for functional suitability and available samples of the described parts can be requested for installed tests, suitability and evaluations.

ATTENTION

Blind fasteners are not always a suitable substitute for solid shank fasteners. Maintenance personnel are reminded that AC 43.13-1A chapter 2, section 3, stipulates: "Do not substitute hollow rivets for solid rivets in load carrying members without specific approval of the application by a representative of the Federal Aviation Administration. Blind rivets may be used in blind locations in accordance with the conditions listed in Chapter 5, provided the edge distances and spacings are not less than the minimum listed in paragraph 99d."
